How to Use This Book

Each chapter covers a different subject. Inside every chapter you'll find five puzzle types all built around the same theme. Work through them in order to build your score, or jump to whichever type challenges you most.

- ① **Multiple Choice Trivia** Seven questions, four options each. Select the best answer. Check your score in the Answer Key at the back.
- ② **Word Search** Twelve themed words are hidden in a 12×12 grid — horizontally, vertically, or diagonally. Words always read left-to-right or top-to-bottom.
- ③ **Cryptogram** A famous quote encoded with a Caesar cipher (each letter shifted +7). Decode it to reveal the hidden message.
- ④ **Word Scrambles** Six topic words with scrambled letters. Unscramble each to find the answer.
- ⑤ **True or False** Seven statements — mark each TRUE or FALSE. All answers are verified facts.

CRYPTOGRAM DECODER

*Cipher Key: Each letter has been shifted forward by 7 positions.
A→H B→I C→J ... Z→G. To decode: shift each letter BACK by 7.
Example: OL ZH → HE RE*

SCORING TIP

Track your score using the Score Tracker box at the end of each chapter. Add up your totals on the back page to find your Knowledge Rank!
